## Summary

✳️**Note:** Like all Japanese patterns, stitch counts given here for foundation chains do **not** include any chain sts needed for turning posts.

**Motifs:** Work foundation chain to begin, then work in sc, increasing and decreasing as shown in charts to create diamond and triangle shapes. Refer to schematics for color sequences and number required of each shape/color combination.

**Handle (make 2):** Work foundation chain to begin, then work in sc.

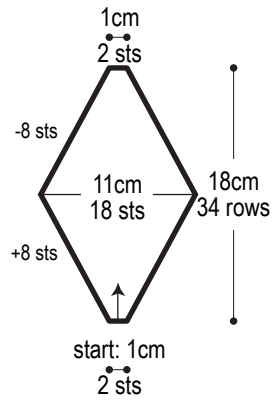

**Finishing:** Referring to schematic, seam motifs together with right side facing using whipstitch. Turn bag inside-out, then make gusset. Attach handles to bag with whipstitch.
